

# OPTIMIZE EVERY CLAIM BEFORE SUBMISSION

## What is Edit+?

Edit+ is a pre- and post-editing (PPE) service from PowerLine that provides real-time evaluation of pharmacy claim submissions and adjudicated responses. It helps ensure accurate, compliant, and revenue-optimized claims.

### Real-Time Claim Optimization

Automatically corrects claim submission errors that could cause payer rejections

### Audit Prevention

Catches submissions containing errant data that could trigger audits and claw backs

### Up-to-Date Pricing Assurance

Ensures current, optimal drug prices to avoid reduced payer reimbursements

### Time and Cost Savings

Saves pharmacies potentially thousands per year in reduced staff hours and audit exposure

## How Edit+ Supports You

- ✓ Proactively flags potential errors, identifies opportunities for revenue optimization, and minimizes administrative burden
- ✓ Edits claims in core categories like financial protections, compliance and regulation, patient safety, prescriber validations, and operational assistance
- ✓ Leverages a highly configurable rules processing engine to meet pharmacies' unique needs for validation and intervention logic

### Estimated Monthly Savings

In reduced claim rework, audit mitigation, and manual pricing corrections

**Time:** 90 minutes

**Labor:** \$150

**Claw Backs:** \$300 per prescription
