

EDUCATE PATIENTS AND ENCOURAGE ADHERENCE

Pharmacists, meet a simpler way to support medication adherence.

Pharmacists, meet a simpler way to support medication adherence. Clinical+ enables real-time patient engagement at key points in their treatment journey. Your staff can use Clinical+ to share education, provide patient assistance, and simplify clinical interventions. If you complete the suggested action, your pharmacy can receive invoice credits for eligible programs (amount varies per program/campaign).

Patient Education

Deliver targeted messages that prompt patient behavior

Multi-Channel Communication

Talk to patients in multiple ways from in-person to digital

Meaningful Adherence Lift

Provide instant access to copay savings and other data-driven medication adherence programs

User-Friendly Integrated Workflow

Simplify how you identify patient opportunities with the modern interface

How it Works

Clinical+ is built to simplify patient engagement. It's technology that supports your pharmacy's clinical opportunities and puts you in charge. Use it to identify, communicate with, and support patients with their treatment, all within pharmacy workflow.

- ✓ Follow workflow prompts designed to help your team manage clinical opportunities with confidence
- ✓ Use web portal to review and manage active clinical programs, supervise patient messaging, and track program metrics
- ✓ Improve fill rates and lean into your pharmacy's role as an important, accessible health advisor

We Partner with You

With Clinical+, we're not just dispensing medication—we're proactively supporting better outcomes. It helps our team identify patients who need help and gives us a way to follow through, right in our workflow.

- Pharmacy owner and PioneerRx customer
